Table Cloth Guide

Size Guide (table cloths)

We have a standard size for both cloths and runners but can make items up to any reasonable dimensions, . We use cloth rolls that are 1.5m (60") wide and can join these to make up larger widths with a discreet seam.

Popular sizes are as follows:

3m x 1.5m (60" x 120")
3m (120") x 1.5m (60") Our regular size, this will fit a 1.5m - 1.8m (5ft to 6ft) Trestle table covering the top, front & sides, the excess cloth is easily folded in to create that fitted look.

2m x 1.5m (100" x 60")
Shorter than a regular size cloth, this will suite a 1.2m or 1.5m table with less folding to look neat

1.5m x 1.5m (60" x 69")
A square cloth, this will suite a 1.5m table or smaller & have nothing down the sides, this is also ideal for Round tables with logos places in the corners.

2.7m x 2.2m (109" x 90")
Large cloth, this will give you full coverage over a 5- 6ft table on all four sides. Please note this item is joined.

Print Guide (Table cloths & Runner)

We will need to know what your logo is like, we can print single, multiple colours and full colour logos and use several print methods to achieve the best result for you job. An example of the different logos types we print can be seen below.

The Ideal File type to send us is a vector EPS or PDF:

Single colour
Our most popular print, Single colour (usually white) onto a darker background, this is usually CAD transfer printed & pressed at 170 degrees. We use Opaque Flex and Flock materials. Items can be washed at 40deg

Multiple layered colours on colour cloth
Similar to single colour printing multiple layers are placed together onto the cloth to create a more traditional & formal look onto a coloured cloth.

Full colour logo onto coloured cloth
Using our special Versa Printer we can create a full colour image which is cut out and transfer pressed into the cloth and is washable. Items can be washed at 40deg

Full colour image onto white cloth
A dye sublimated logo onto a 100% Polyester cloth, this is our toughest and most permanent print allowing items to be used indoors or out, washed at 60 or even chemically dry cleaned without any problems.

Colour

Lots of colours available, send us your Pantone reference and we will try & match up as best as we can, lots of examples available to see on our website.

100% POLYESTER, POLY/COTTON, POLY POPLIN & 100% COTTON
